From Tragedy to Triumph

To help young burn survivors achieve a social confidence and meet their education goals. Our major focus of the Tragedy to Triumph Foundation will be to provide funds for those with financial need when they are accepted into an accredited post-secondary institution.

Our mission is to provide support to burn survivors and their families. When a loved one goes through a life changing tragedy it affects the entire family. We all strive to find normalcy again. What we realize through any tragedy, once we survive, we are living a "new normal" life.
